Wireless Nurse Call Pendants & Wristbands

*Residents know help is just
a button push away*

- Allows mobile residents to call for help throughout your facility
- Easy to wear, washable, water resistant
- Optional miPOSITION feature available which identifies and tracks the resident throughout the facility

*Building technologies that provide
quality care through innovated solutions*

**Water-resistant
Wristband**

miALERT Wireless Nurse Call Pendants provide residents with the comfort of knowing help is just a button press away, while offering the advanced functionality and reliability caregivers and communities depend on.

Goes wherever your residents need to be ... even in the shower!

Small, lightweight, and comfortable

60% smaller and lighter than our previous pendant. The new pendant is discreet and easy to conceal under clothing. A contoured shape and polished finish make it comfortable to wear.

IP61 Water Resistant Rating

Water and dust-proof sealed housing allows residents to safely shower while wearing their pendant.

Advanced Functionality

Bright light signal alarm and low battery conditions.

Enhanced Wearability

Available in both neck lanyard and wristband styles. Specifically tailored for comfort.

Water-resistant Pendant
